Make: _____ Model No.: _____ Serial No.: _____

Make: _____ Model No.: _____ Serial No.: _____

FURNACE/BOILER:

Make: _____ Model No.: _____ Serial No. _____

Make: _____ Model No.: _____ Serial No.: _____

Preventative maintenance:

It is the recommendation of utilities and manufacturers to have regular preventive maintenance. The benefit of regularly scheduled preventive maintenance to you is that it prolongs equipment life, can reduce the extent or frequency of failures, and helps contain fuel bills. A service agreement also gives you priority service over non-agreement customers should you experience a breakdown. Finally, you get peace of mind by having trained professionals check to make sure your home comfort appliances are safe to operate.

Check All Wiring & Connections, Tighten as needed.
Check Contactor & Relays
Check Heat Exchanger & Burners
Check Operating Pressures & Temperatures
